

**From:** RBrumpton@atai.com@inetgw  
**To:** Microsoft ATR  
**Date:** 1/23/02 3:22pm  
**Subject:** Microsoft Settlement

The proposed settlement is too weak and does not take into account other operating systems that are striving to be windows compatible. If passed this settlement would send the message to Microsoft that what they have done over the last several years is not that bad and they will continue exercising their monopolistic powers.
